

<b>Description</b>	<b>LM Direct Imager adapter</b> with precision optics for Leica microscopes with photo tube with 35mm internal diameter, incl. camera lens mount adapter and filter holder for using optical filters
<b>Optics</b>	Special hard anti-reflection plan achromatic coating optics with faktor 2x
<b>Camera</b>	Digital cameras with interchangeable lens mount, such as M43, APS- C and Vollformatsensor
<b>Microscope</b>	Leica microscopes with photo tubes with 35 mm internal diameter, such as: z.B.: Leica BM500, Leica BM750, Leica DML, Leica DM250, Leica DM1000, Leica DM 2000, Leica DM3000, Leica DM2500, Leica DM4000, Leica DM5000, Leica DM6000, Leica DMI5000
<b>Gewicht / Material</b>	Approx. 250g / CNC milled and turned black anodized aluminium

Order code: **DD2XZ35**

Comparison field of view **APS-C - fullframe**

### Application example
