|--------------------------|---|
| Description | Focusable LM Direct Imager SLR Adapter with precision optics for Olympus microscopes with phototube with 42 mm internal diameter, incl. specific camera bayonet adapter and filter option |
| Optics | Special hard anti-reflection plan achromatic coating optic with factor 2x. |
| Camera | For digital cameras (DSLR) and mirrorless system cameras (DSLM) with APS-C and fullframe-sensor |
| Microscope | Olympus microscopes with photo tubes with 42 mm internal diameter, such as Olympus AX-Serie, BX-Serie, CX-Serie, IX-Serie, u.a. |
| Weight / Material | Approx. 350 g / CNC milled and turned black anodized aluminium |

Comparison field of view
APS-C - fullframe

Order code: DD2XZ42VAR

Application example

The diagram shows the adapter lens being used in two ways. On the left, it is shown with an "Olympus photo tube" and a ruler for scale. On the right, it is shown attached to a camera, with a green arrow pointing from the adapter to the camera. A dashed green line outlines the camera and adapter assembly. The text "focusable" is written next to a vertical double-headed arrow indicating the adapter's focusing mechanism.
