

## Description

**LM Direct Image C-Mount Port 1x** with C-mount connection, for direct attachment of C-mount microscope- and industrial cameras with sensor dimension around 1"

For other camera systems with larger sensors (APS-C and fullframe sensors), such as DSLRs, mirrorless system cameras (DSLMs) or high speed cameras, we additionally recommend our LM adapter solution with integrated optics for adjustment of the image field.

Optionally with filter holder for optical filters with M37 thread

## Microscope

For Nikon microscopes with 38mm inner diameter photo tube (such as Eclipse E100, E200, E400/E600, ME600, 50i/55i)

## Weight / Material

130 g / CNC milled and turned black anodized aluminium

Order code: **LM\_NikonC1X\_38**

Application example
